The NC WISE Email Bulletin highlights issues and announcements that were communicated to users during the week. The bulletin also features late-breaking and recurring news about NC WISE.

In this issue:

1. W2 – No Show Withdrawal Code

A new code **W2-No Show** is available. The new W2-No Show code should be used for all withdrawals that previously would have been withdrawn using the No Show Process.

**Students who are transferring to another school can be withdrawn and picked up via the Statewide Student Repository.**

In an effort to eliminate additional duplicate students in UID, the No-Show process in eSIS is no longer available. After carefully examining each student’s situation, please use the appropriate withdrawal code that fits the student’s withdrawal scenario, i.e. W1, W2, W7, etc.

Please log a ticket through the NC WISE Service Desk for any students who have been duplicated in error. More information including Webinars and reporting is forthcoming.

If you have any questions, please log a ticket to the NC WISE Service Desk at ncwise.incidents@its.nc.gov.
