**Note:** You cannot update this screen. You must click **Edit GPA Mark/Weight** to update information.

2. To set up the alternate final mark calculation, highlight the course length of 36 weeks - 1st semester average reporting period and click **Edit GPA Mark/Weight**.

Course Length: 36 Weeks

Start Date: 08/07/2006

Reporting Period: Year - Semester 1 Average

Include mark in current reporting period GPA?

Mark to be used in GPA: Regular Course Marks

Weight when used as 'Alternate Final': 0.5

If these fields are disabled, then another reporting period for this same course length and start date has already been designated as the mark to be included in the GPA. First, change the currently selected record and then you will be able to edit this record.

3. Click the **Include mark in current reporting period GPA?** checkbox and type 0.5 for the **Weight when used as 'Alternate Final'**. Click Save to return to the previous screen. Now the **School Reporting Date** shows an alternate final mark.

**Note:** A weight of 0.5 results in half of the quality points and half of the credit for the course being used in the GPA calculations.
